

# THE MORE YOU KNOW THE BETTER THEY'LL GROW

HHSC Child Care Regulation's Unregulated Operations Unit builds awareness and educates Texas communities on the benefits of choosing a regulated child care operation.

Child Care Regulation is the state division charged with regulating child care operations across Texas to protect the health, safety and well-being of children in child care settings.

## Educate

Through community engagement and outreach, the Unregulated Operations Unit educates the public, community partners and stakeholders on Texas laws and the benefits of choosing regulated child care.

## Empower

The Unregulated Operations Unit empowers families to identify regulated child care, ask detailed questions and understand the importance of staying involved in their child's care.

## Expand

The Unregulated Operations Unit expands and enhances the child care provider community by promoting the benefits of becoming a regulated child care operation, which include playing a critical role in the early learning and development of Texas children.
