### PURPOSE

Program types, costs, and student outcomes vary significantly between schools and colleges. The Texas Workforce Commission (TWC) and the Lower Rio Grande Workforce Development Board (LRGWDB) do not endorse one institution, organization, or individual training provider over another. However, TWC and the LRGWDB encourage and recommend all prospective students to shop wisely. In order to provide resources the LRGWDB has created this publication which includes the following information for approved trainings in our local workforce development area: brief description of targeted occupation, entry and average salary<sup>1</sup> (*EMSI 2016 Employment & Wage Projections*), approved training providers and locations, program names, contact/credit hours received, training cost, identification whether the training is Pell grant eligible, and enrollment, graduation and employment rates for recent graduates. For a complete list of training providers or trainings available throughout the state please see the following website: <https://services.twc.state.tx.us/PROVIDERCERT/dispatcher>

### PERFORMANCE STANDARDS

All licensed career schools with vocational preparation programs must annually report to TWC on student enrollment, completion, and employment in each vocational program. TWC's Completion and Employment Rates provide common outcome measures for the approved vocational programs of licensed career schools and colleges. These rates may be different than other school graduation or employment rates used by other agencies that approve post secondary education programs operating in Texas. All certificate-level vocational programs of TWC licensed schools must meet the minimum rate approved by the state and local board.

### STATE AND LOCAL BOARD PERFORMANCE MINIMUMS FOR PROGRAM YEAR 2015-2016

Completion Rate 60%  
Employment Rate 60%

### CAREER SCHOOL AND COLLEGE PERFORMANCE INDICATORS<sup>2</sup>

Reporting Period-Sept. 1, 2015- Aug. 31, 2016

**Annual Enrollment**-Annual Enrollment and Student Outcomes Report is an annual report required by all licensed career schools and colleges holding a Certificate of Approval from the Texas Workforce Commission (TWC). These schools are required to submit the student enrollment and outcome information for courses approved by TWC by December 1 of each year.

**Completion Rate**-Completion Rate is the number of students who graduated as a percentage of all students who left school, not counting those who left because they entered other post-secondary education program, the military, or incarceration; or died.

**Employment Rate**-The employment rate is a calculation of the number of graduating students who were employed in an occupation for which they were trained by the program, as a percentage of all students who graduated from the program, not counting those who entered another post secondary education program or the military full-time, were incarcerated, or died. Employed students include both those that were actively assisted in obtaining their job by the school (Placed) and those that were not (Not Placed).

**Note:** There may be various reasons why there is no data displayed under enrollment, completion or employment:

- N/A is shown for programs that were not yet approved during the reporting period.

- For programs with no completion or employment rates the report will reflect "No (0) enrollments" or "No completers" and "No employment rate %".

#### **EQUAL OPPORTUNITY IS THE LAW**

*Lower Rio Grande Valley Workforce Development Board dba Workforce Solutions is an equal opportunity employer/program and auxiliary aids and services are available upon request to include individuals with disabilities.
